Mexican CDL: Licencia Federal de Conductor

Mexican CDL (Old Document)

• Licencia Federal de Conductor
The first information an officer should look for is the statement near the top of the document, in bold, that says this document is a "LICENCIA FEDERAL DE CONDUCTOR". This enables the officer to quickly distinguish such a license from one issued by a Mexican state to a driver. Mexican state driver licenses are NOT valid for operating a CMV which requires a CDL in the U.S. and Canada.

• Driver's License Number
The license number is indicated in red in the lower left corner of the Mexican CDL. Just as with some U.S. state license numbers that include letters, Mexican CDL numbers always begin with letters, and those letters must be included as part of the license number when the number is recorded.

• Issuance Date
The Mexican CDL indicates the original date the driver received the license. The date of original issuance is indicated in the "Antigüedad:" field and displayed as dd/mm/yyyy.

• Expiration Date
The validity of the Mexican CDL is indicated in the fields "Vigente desde" or "Vigente desde" and "hasta". "Vigente desde" indicates when the license is valid from and is displayed as dd/mm/yyyy; "hasta" indicates when the license is valid through and is displayed as dd/mm/yyyy.

As of April 21, 2010, the Mexican CDL must be reissued every five years for all license classes except class E (HazMats) which must be reissued every three years. Note: Licenses issued before April 21, 2010 must be reissued at the end of the two-year period as displayed on the license.

Law enforcement should always verify the Mexican CDL's validity electronically in the eLicencias system CO L status includes the medical certification status. Please refer to item 9 Licencias-Check for verifying the Mexican CDL validity electronically.

• Driver's Name and Address
The Mexican CDL lists the driver's name in three lines in the center of the license. The name is displayed in the following order:
- Given name(s) (first and middle)
- Paternal Surname (father's last name)
- Maternal Surname (mother's maiden name)

The Mexican CDL does not include the driver's address due to Mexico's privacy policy.

Continued on back
Date of Birth
There is no label for date-of-birth on the Mexican CDL. However, this information is included as the first six numeric digits in the “Cury” field, immediately following the letters. The date of birth is displayed as yymmd d.

License Class
Locate the license class in the “CATEGORIA” box at the bottom, right corner of the license. A Mexican CDL will indicate a category of A through F. Refer to the Licencia Federal Classes (Categorias) on this card for equivalent U.S. class and endorsements.

Restrictions
On the back of the license, at the top, a series of preprinted boxes exist which can be marked to indicate useful medical conditions of the driver, should he or she be involved in an accident. The only pre-printed restriction box on the document applicable to operating a CMV in the United States and Canada is “LENTES” (eye glasses). If the “LENTES” box contains an “X,” the driver must be wearing corrective lenses to operate a CMV.

Additional possible restrictions may be placed on the document as explanatory phrases in the large comment field labeled as “OBSERVACIONES.” An important restriction for law enforcement to recognize is that the driver could be restricted to operating a CMV in Mexico only which would read: “VALIDA SOLO PARA CIRCULAR EN LA REPUBLICA MEXICANA.” The eLicencias response to a driver inquiry will contain any such restrictions that apply to that driver, in clear English.

Licencia Federal Classes (Categorias)

<table>
<thead>
<tr>
<th>Categoria</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>This category is for any bus. This is roughly comparable to a U.S. Class “B” CDL with a passenger endorsement.</td>
</tr>
<tr>
<td>B</td>
<td>This category is for any truck (including straight, combination, doubles, triples, tank), but excluding hazardous materials. This is roughly comparable to a U.S. Class “A” CDL with a tank and doubles/triples endorsement.</td>
</tr>
<tr>
<td>C</td>
<td>This category is for straight trucks (maximum of three axles, which includes any towed trailer axles), but excluding hazardous materials. This is roughly comparable to a U.S. Class “B” CDL with a tank endorsement.</td>
</tr>
<tr>
<td>D</td>
<td>There is no comparable U.S. CDL definition. Authorizes holder to operate automobiles and small buses, which do not exceed 7,716 pounds (3500kgs) or have a capacity to carry no more than 13 passengers (including the driver who also serves as the tour guide) for purpose of tourism.</td>
</tr>
<tr>
<td>E</td>
<td>This category is for any type truck or combination, including hazardous materials. This is roughly comparable to a U.S. Class “A” CDL with a hazardous materials, tank and doubles/triples endorsement.</td>
</tr>
<tr>
<td>F</td>
<td>There is no comparable U.S. CDL definition. Authorizes holder to operate taxis from any airport or seaport in Mexico. Note: This is because airports and seaports are federal and require a federal license, similar to driving a commercial vehicle on a federal road.</td>
